PRPA SCANNING FEE ELIMINATION

August 31, 2026

Following last week's notification from the Puerto Rico Ports Authority (PRPA) that the cargo scanning requirement has been eliminated, TOTE Maritime Puerto Rico has removed the associated cargo scanning fee from its tariff effective August 28, 2026.

The fee will no longer apply to cargo shipped on or after August 28. The *Isla Bella* sailing 5553S is the first TOTE sailing for which the fee will not apply.

In accordance with the PRPA's effective date, the fee remains applicable to cargo shipped prior to August 28, including the August 25 *Perla del Caribe* sailing, and cannot be removed retroactively.

If you have questions regarding this change or its application to your shipments, please contact your TOTE Maritime Puerto Rico representative.

Thank you for continued support.
